VR & GFX ILLUMINATOR KEY PADS

PRODUCT SPECIFICATIONS

Dimensions: 19.00, 82.00, 93.00, 118.50, 25.00, 42.50 (first keypad)
19.00, 82.50, 93.00, 118.50, 63.50, 74.00, 99.50 (second keypad)
Ø 4.5 typ, 19.00, 82.50, 93.00, 118.50, 82.50, 93.00, 118.50 (third keypad)
11.1, 10.50, 8, 2.5 (side view)

Transparent Key Cap
Transparent Legend Tile (0.175mm)
Transparent Coloured Tile (0.175mm)
Key Base Supplied fitted to keypad

GFX-Illuminator SERIES
Keytop Assembly Instructions

Illuminated Series keypads are supplied with the key bases fitted. Each key position can be customised without dismantling the keypad. Keytop options can be selected from a library of standard symbols, characters or background colours. Alternatively, customised keytop graphics can be created using laser printed acetate film or screen printed polymer film. The total thickness of the coloured tile and legend tile should not exceed 0.4mm. *(Please note, paper is not recommended as the printed graphics may degrade if exposed to moisture / condensation.)*

1 Orientate the keypad correctly by checking the connector position on the underside of the keypad.

2 Load each key position in turn. First locate the legend tile into the transparent key cap, then locate the transparent coloured tile (see diagram). **Before snapping the transparent key cap, including legend and customer tile, into position ensure that the legend tile's position, orientation and alignment are correct.**

Please note, if it is necessary to remove the transparent key cap a suitable tool or pliers should be used. Once removed the key cap should not be re-used; spare key caps and bases are available in sets of 4, part number GS0000.

|	VR	GFX
Vandal Resistant	Yes	No
Impact Resistant	Yes	No
IP Rating	Up to IP67	Up to IP54
Key Life (cycles)	4 Million	2 Million
Service Temp. (non condensing)	-40^{0}C to +100^{0}C	-10^{0}C to +75^{0}C
